I do not look highly upon an acceptance of a substandard settlement. I am 16 years old and have a lot of time ahead of me, I do not want to live a life in which Microsoft can charge what it wants of its operating systems, and more importantly, and oft overlooked, its office program. I cannot afford \$700 to do school work. This is outrageous. Either give schools another program or get the price of office lowered. That is the one thing I ask.

Thank you,
